

**THE SAN JOSE BOOKSHOP presents**  
**“HEALING THE HEALER”**

**(For Anyone in Service to Others- at their job / career, with  
the family, the community or for the planet)**

**Sandy Kamiak, M.D. and Tina Aderholt, C.M.T.**

**This is an experiential workshop that will allow you to consciously step out of your role of giving to others, to refocus inwardly to your Source of peace, nurturance, joy, serenity, creativity, rejuvenation, and to honor yourself, for all that you do in life. Recharge your battery, as we open to the universal flow of the Divine, transcendent and within us. You will also have an opportunity to empower yourself through discovering personal roadblocks (patterns, negative thought-forms, or projections) that limit one’s ability to receive the good stuff (love, lightheartedness, clarity of mind, purpose, prosperity) and transmute them. Have you noticed how things are speeding up on the planet? We are on Earth at a very special time -or some might say, as things are shifting so quickly now, we are close to “no time.”**

**Transformation is now- let’s lighten up and do it!**

**\* Offered quarterly- same purpose, varying topics. Drop in as you can or give this gift to yourself continuously:**
